SKILLS

Programming Languages: Java, React.js, SQL, Python,Node.js, SpringBoot, Flutter(DART) HTML,CSS,Javascript

Databases: MySQL,MongoDB

Technologies: Cloud Computing, Firebase,AI/ML,Git

Soft Skills: Problem Solving, Team Collaboration, Adaptability, Critical Thinking, Quick Learner

EDUCATION

B.E. in Computer Engineering
Marathwada Mitra Mandal College of Engineering
2022-2026
SGPA: 8.8

Higher Secondary Education (12th)
Progressive English School Gondia
2020-2022
Percentage: 66.98%

Secondary Education (10th)
Vivek Mandir School Gondia
2019-2020
Percentage: 83.56%

CERTIFICATIONS

- AI/ML Certification- Intel Unnati
- Full Stack Development Certification- TheKiranAcademy
- Generative AI- Google
- Prompt Design- Google
- Python Certification - Udemy
- Java Certification - Udemy
- AWS Certification - Zscaler

PROFILE

AI-focused Computer Engineering student with hands-on experience in developing LLM-powered applications, full-stack systems, and cloud-based solutions. Proficient in building scalable web and mobile applications using React, Flutter, Node.js, and Flask, with strong expertise in Java, Python, and SQL. Experienced in prompt engineering, API integration, workflow automation, and sentiment analysis. Passionate about creating intelligent, user-centric AI solutions leveraging modern generative AI technologies.

WORK EXPERIENCE

Cloud Computing Intern
AICTE Internship
January 2024 – March 2024

Focused on AWS cloud technologies, deploying and managing cloud applications, which improved services' uptime and performance.

Software Development Intern
Hilwitz Solutions
October 2025 – January 2026

Worked on full-stack development for internal and client projects, building responsive web and mobile applications. Developed backend services and REST APIs using Node.js, Express and Firebase, and collaborated in Agile workflows using Git/GitHub.

PROJECTS

StockInsight Pro
Built an AI-driven financial analysis tool using sentiment analysis and LLM APIs to extract insights from company reports, improving decision-making accuracy.
Tech Stack: Flask, Python, Mistral API / OpenAI, Pandas, Matplotlib, React.js

Printify – Online Xerox & Print Ordering App
Developed a web app for local print shops to receive and manage print/Xerox orders with file uploads, print type selection, and live order tracking.
Tech Stack: Flutter(Dart),React.js, Node.js, Express.js, Firebase, Tailwind CSS

Brand Decode – Company Insight Generator
Created a web app that extracts and summarizes brand stories, social media sentiment, and company data from a URL using AI and web scraping.
Tech Stack: React (Vite), Flask, Mistral/OpenAI API, BeautifulSoup, Tailwind CSS

AI Receptionist Bot for Clinics
Developed an AI-powered WhatsApp chatbot automating appointment booking using LLM-based conversational flows, reducing manual scheduling efforts by ~70%. Integrated Twilio API and real-time Google Sheets data for dynamic responses.
Tech Stack: N8N, Twilio API, Google Sheets API, Make.com, JavaScript, Webhooks

PROFESSIONAL MEMBERSHIP

Department coordinator, ACM Student Chapter, [MMCOE] (2024-current date)

- Participated and organized in various hackathons like SIH, Innovators challenge.
- Department Coordinator for Computer science, ACM Student Chapter.
